

ASHOK MON R

UI/UX DESIGNER

SUMMARY

I'm a UI/UX Designer with a year of industry experience specializing in creating intuitive and visually appealing user interfaces. Proficient in Figma and ProtoPie, I am skilled at translating user requirements into elegant design solutions. I have a strong understanding of user-centered design principles and a passion for crafting seamless user experiences. I strive to create engaging digital products that combine functionality with aesthetics. Let's collaborate to build captivating designs that delight users and drive business growth.

WORK EXPERIENCE

FREELANCE PROJECTS

UI/UX DESIGNER

05/2024 – present

Chennai, India

➤ CLOTHY – Customized Dresses Selling App:

Crafted the "CLOTHY" mobile app, meticulously refining its UX/UI to ensure effortless exploration and purchase of digital arts and restoration services. Prioritized visual allure and user interaction to enhance the browsing and buying journey.

➤ NAMMA HOSTEL - Paying Guest Finding App

Created "NAMMA HOSTEL" mobile app featuring intuitive UI for seamless PG search by location, budget, and amenities. Innovated My Room section for daily engagement, showcasing meals, community interactions, and distinctive features differentiating it from competitors like Stanza Living

➤ DOCTOR CONSALTANT APP:

Designed a comprehensive App for viewing the Doctors and booking slots, Technologies using Prototype, Typography, Wireframe.

➤ WHATSAPP CLONE & TRAVEL APP:

Designed a WhatsApp clone and Travel App, Technologies using Horizontal &vertical scrolling, Glass-morphism, Color Theory.

Roles and Responsibilities

- Conduct user research, surveys, and usability tests to gather insights and improve user experience.
- Utilize front-end frameworks like React, Angular, or Vue.js to enhance application performance and scalability.
- Develop wireframes, prototypes, and high-fidelity designs using tools like Figma, Adobe XD, or Sketch.
- Convert UI designs into functional, responsive web applications using HTML, CSS, and JavaScript.
- Regularly update and maintain the application based on user feedback and evolving project requirements.
